

# AGRISPON®

# Rice

Philippines

Best yield was Agrispon with 50% nitrogen followed by 100% fertilizer (90-40-90) alone.

### Fertilizer:

**100% N:** 90-40-40

**50% N:** 45-40-40

### Agrispon:

**100%:** 1.5 L/ha (1.6 gal/10 acres)

**50%:** 0.75 L/ha (0.8 gal/10 acres)

66% Applied 5 days before transplanting, 33% 30 days later to vegetative portion of the plant at the maximum tillering stage.

## Rice Grain Yield
