

Untreated

Agrispon treated, 147 days after first application

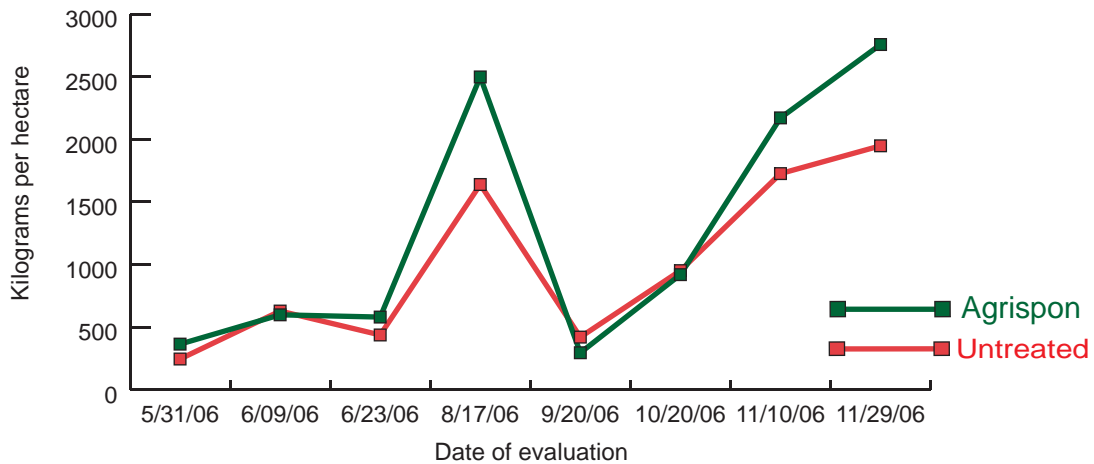

Untreated

Agrispon

Agrispon had been applied at 0.5 liter per hectare on May 5, July 13 and September 9. By September 29 the visual difference in the trees was significant as shown in the above picture. In six months the Agrispon treated lemons produced 25% more individual lemons and 27% more by weight (Agrispon: 10,173 kg, untreated: 7,994 kg).

### Total Weight (kg) Per Hectare of Lemons
