

SINCOCIN®

Trees

Malaysia

Agrispon and Sincocin increased seedling growth and development.

Treatments:

0.2% A = 2 ml Agrispon/liter of water

0.4% A = 4 ml Agrispon/liter of water

0.6% A = 6 ml Agrispon/liter of water

0.8% A = 8 ml Agrispon/liter of water

0.2% S = 2 ml Sincocin/liter of water

0.4% S = 4 ml Sincocin/liter of water

0.6% S = 6 ml Sincocin/liter of water

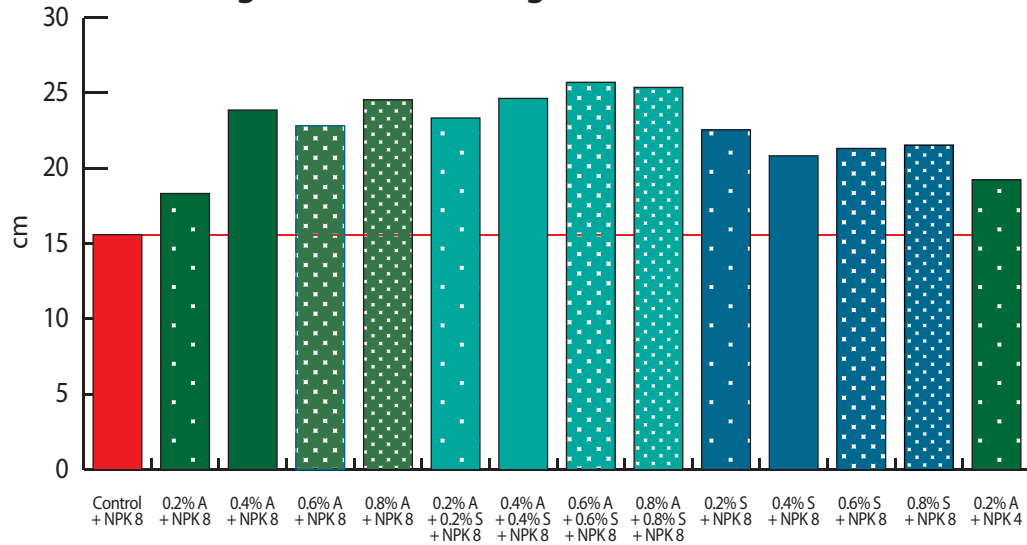

0.8% S = 8 ml Sincocin/liter of water

NPK 8 = 0.45 grams/plant of 15-15-15

NPK 4 = 0.23 grams/plant of 15-15-15

All treatments were replicated 3 times with fifteen seedlings per replicate.

Height of Pine Seedlings (*P. caribaea*) at 12 Weeks

Rooting system of untreated and treated seedlings of *P. caribaea*

Note the difference between the treated and untreated seedlings.
