

SINCOCIN®

Potatoes

Australia

Agrispon or Sincocin rates:

1 Liter/ha (1.1 gal/10 acres)

2 Liter/ha (2.1 gal/10 acres)

3 Liter/ha (3.2 gal/10 acres)

Initial spraying was when the potato plants were small (10-15 cm or 4-6 inches). The second application was 38 days later; the final application was 25 days after second application.

Fertilizer (to all treatments):

Nitrogen: 169 kg/ha (151 lb/a)

Phosphorus: 171 kg/ha (153 lb/a)

Potassium: 197 kg/ha (176 lb/a)

Sulphur: 387 kg/ha (345 lb/a)

Potato Yield Response, Highest to Lowest
